GREAT MEDICAL DISCOVERY! WITH such testimony, no stronger proof can be given, unless it be trial of this wenderful Hampton's Vegetable Tincture.

Table Tincture.

Let the afflicted read! read!

BARRELYULE, ALLEGANY COUNTY, (Md.,)

May 4, 1852.

To Mesers. Mortimer & Mowbray:

Data Siras: In justice to Dr. Hampton's Vegetable Tincture, I wish to laform you that I was taken sick on the 3d day of January last, with an affection of the stomach, bowels, and kidneys. I was attended by four eminent physicians for more than two months—all to little or no effect. I had some knowledge of the great virtue in Hampton's Tincture from one bottle which my wife had taken two years since.

ture from one bottle which my wife had taken two years sincs.

I came to the conclusion that I would take no more medicine from my physicians, but try the Tincture; and I am happy to inform you I had not taken it two days before I field its powerful influence upon my stomach. I have continued using the Tincture, and am now able to leave my room, and can eat any common diet without much inconvenience or pressure on my stomach.

The afflicted or their friends are daily visiting me, to learn of the great virtue there is in this Tincture of Hampton's.

I expect to send you several certificates in a few days—one especially from a young lady who has been confined to her room twelve months, with a disease of the head, affecting the brain.

Respectfully yours,

E. W. HALL.

On the permancy of the cure hear him. Still another let-

BARRELLVILLE, ALLEGANY COUNTY, (Md.,)
October 18, 1852. Mesers. Mortimer & Mowbray:

DEAR Sins: I am happy to inform you that this day finds me in the enjoyment or good health, by the use of your Hampton's Tincture and the blessing of God. I am enabled to pursue my daily avocations as usual, and I have a great desire that the afflicted should know the great curative recovers of the Tincture.

THE ALMOST MIRACULOUS CURES made by Hampton's Vegetable Tincture on our most respectable citizens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same testiment. Baltimore, July 6, 1852.

powers of the Tincture.

I am, with respect, yours,

E. W. HALL.

Mesers. Mortimer & Mowbray: Gents: Last & ptember I was attacked with erysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, less November I took a deep cold, which led to what my physician told me was billous pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINCTURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Truth stranger than Fiction !- None need despair !-A Lady's Testimony after thirty-eight years of suffering! Were there not real virtue in this wonderful medicine,

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Northampton Co., April 13, 1862.

Meast. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not more any part of my body without crying with pain; at this time I also tried many remedies, increase and external, without receiving any relief; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better and as I continued taking it I fait strength coming into my back and limbs, and my stemach strengthened and revived every way; I have taken five bottles, and as much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the affilieted, believing It unequalled. Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N.

PORTSMOUTH, (Va.,) Aug. 18, 1851.

Afr. J. E. Boush.—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great considence in the virtues of Hampton's Vegatable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

Chaplain in the U. S. Navy.

NESS. By Dr. Kitto.

"This is a work of great interest, from one of the most learned and accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever since his boyhood, for more than thirty years, Dr. Kitto has passed a life of great activity as a scholar, in a state of the most intense deafness to which any living creature can be subjected. His account of himself, and of his discriminating remarks on the condition of the blind, (James Mitchell, Laura Bridgeman, and others,) are replete with profound thought on the interesting phenomenon presented in the progress of their mental training."—Christian Observer.

MACHINE FOR CRUSHING, GRINDING, AND

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

COCHRAN'S PLANOSHERICAL QUARE CRUSHING AND PULVERIZING MACHINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverising Quartz, Iron fore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the sconomy of these machines that they are found capable of crushing and pulverising into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of smalgamation that may be necessary.

and pulverized, that the solution is a subjected to any process of amalgamation that may be cessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being put out of order; nor do they heat any material while being put out of order; nor do they heat any material while being put out of order; nor do they heat any material while being put out of order; nor do to they of the Truggist to those of the most extensive operations in Californis and Australia.

gist to those of the most extensive operations and Australia.

These machines are from two to twelve feet in diameter with balls or spheres from three inches to five feet in diam oter, each machine weighing from 250 pounds to 20 ton each, and are sold, with the right to use them, at from \$10 to 25 (200 acc). oach, and are sold, with the steam, water, horse or manual to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls any deelred amount of power may be used, from that of a

any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the east superiority and economy of these machines over any other, for crutating, grinding, or pulserising, heretofore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first street south of Peek Slip Ferry, every day, from 7 to \$\text{s}\$ a. m., and from 4 to 6 p. m. For further particulars, apply to E. & J. BUSSING & CO., aug 23—2w 32 Cliff street, New York.

THE Eighth Volume of the SCIENTIFIC AMERICAN Commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge thomselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architesture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processe, Distilling, Coloring, &c., Steam and Gas Engines, Bollers and Furnaces, Mathematical, Phicosphical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Fire Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventions, American and Foreign. The work is in form for binding, contains several hundred Engravings, ever four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subsciences the state of the subsciences to this Volume. It is published weekly by MUNN & CO., at their Patent Agency Office, 123 Fulton street, New York.

TERMS—ALWAYS IN ADVANCE.

TERMS-ALWAYS IN ADVANCE.

KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HARVESTER

IS REFORE THE PUBLIC FOR THE FIRST TIME
IS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaving,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every farmer will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER. 

Cost of harvesting, &c., 1,000 acres ..... 4500 

have found them to agree unanimously with the attive culculation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realised from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming implement, and the satisfactory mannerin which it operates, can do so by calling at

B. WHEELER'S.

Opposite Browns' Hotel.

N. B.—The subscriber has purchased the right for Montgomery county, Maryland.

Transition Coal.

Transition Coal.

This rare and valuable Coal is a variety not quite changed into an anthracite, and it has only been discovered (in large quantities) at three places upon our globe, viz: at South Wales, Great Britain; at Donetz, in Russia, near the Black Sea; and at Dauphin and Lebanon counties, Pennsylvania. In the London market this coal commands the highest price. It is now mined upon the large estate (43,000 acress) of the Dauphin and Susquehanna Coal Company, situated in Pennsylvania, and it is neares to the cities of Baitimore and Washington than the coal of any ofher region. For easy ignition, durability of fire, complete combustion, easy adaptation to the temperature of the weather, and its great power in generating beat, it is the next coal in the world. It has the inflammability of the bituminous coal, with the cleanliness of the anthracite, and a greater durability than either. It burns without making any scot or visible smoke, and the combustion is so complete that it retains the fire until all the coal is consumed. Not so with the anthracites, especially the hard and heavy kinds. They do not burn up, and hence the common troublesome practice of sifting their ashes to obtain more fuel. In burning the Transition Coal there is no works, for the small coals made by handling, burn as well as ordinary coal. All should be burned together. If screened at all the dust only should be taken out.

Transition Coal there is no waste, for the small coals made by handling, burn as well as ordinary coal. All should be burned together. If screened at all the dust only should be taken out.

A very erroneous impression exists with many persons that the heaviest coals are the most economical for ordinary purposes. This might be the case if coals were sold by measurement, but never when they are sold by when. In Taylor's valuable work, (Statistics of Coal,) the details are given to show that 31 pounds of a free-burning red ash yielded more heat to a room in 15 hours, than 37 pounds of heavy white ash coal, making the red ash, at \$5.50, to be more economical than the white ash at \$4.50, to be more economical than the white ash at \$4.50, to be more economical than the white ash at \$4.50, to be more economical than the white ash at \$5.50, to be more economical than the white ash at \$5.50, to be more economical than the white ash at \$5.50, to be more economical than the white ash at \$5.50, to be more economical than the white ash as burning the lighter kinds, when tested by the weight and burnt in a suitable manner.

An apprehension exists with some that the free-burning coals have a tendency to clinker. Now, as a general rule, no coal will clinker unless a greater draught be applied to it than the coal naturally requires. Now, so a general rule, no coal will clinker unless a greater draught be applied to it than the coal naturally requires. Now, so a seneral rule, no coal will clinker unless a greater draught be applied to it than the coal naturally requires. Now, so a seneral rule, no coal will count and the coal naturally requires. To one would think of applying a bellows constantly to a fire made of seasoned hickory or oak wood, and it would be equally as abound to apply his absence of the weather score and the proper of the seasoned hickory or oak wood, and it would be equally as abound to apply his ability of the weather scores. If now the heavy white ash anthracites cannot be burner without a powerful draft, an

REW SEVENTH STREET BOOK-STORE.

CRAY & BALLANTYNE having secured commodious of and convenient premises in Seventh street, two doors above Odd-Fellows' Hell, (opposite the old stand of A Gray,) offer a new and beautiful assortment of Religious Books, selected with great care by one of the firm, to which they invite the attention of the Christian public.

They would also respectfully state, that having become the general agents in this city for the sale of the publications of Romer Carser & Boorners, and of the Mermonss Boor Concern, they will always have a complete supply of their respective publications on hand.

They will also keep a general assortment of the publications of the Presbyterian Board, American Tract Society, American Sunday School Libon, &c.

Their assortment of JUERNIE BOORS, and Works suitable for Sunday School Liborates, will be very extensive.

The Depository of the Washington City Bible Society is transferred to their store. Neat Bibles at 25 cents, and Testaments for 6½ cents.

The Depository of the Washington City Bible Society is transferred to their store. Neat Bibles at 25 cents, and Testaments for 6½ cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature.

They sencestly solicit the co-operation of Christian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in soms degree, the deletarious effects of the light and corrupt reading that is flooding the country to such a fearful extent.

In addition te their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaneous, and Juvenile Works of unexceptionable character; Books of Sacred Munic; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every variety of binding, and at all prices; Albums, Annuals, and heautiful Gift Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

Blank Books and superior Stationery in great variety, Pocket Knives, Porte-Monnales, Portfolios, Writing Deeks, superior Gold Pens, and a variety of Fancy Articles.

DENTISTRY.

DENTISTRY.

D. R. CASADAVA ANT, Surgeon Dentist, formerly from Paris and New York, returns hissi neers thanks to the citizens of Washington and Georgetown and victuities for the iliberal patronage which they have extended: but me since he has established himself in this city, and would inform them that he has removed to Lane & Tucker's building, on Pennsylvania avenue, between the National Hotel and 4½ street, where he still continues to perform all operations in his profession in a superior manner, at New York prices, so as to enable all to test his skill, and he warrants his work to be equal to that of the best Dentista. As he manufactures his own artificial teeth, he is enabled to suit all cases, and will undertake to perform all those operations in which other Dentists have failed to succeed. He will refer to many citizens of Washington and Georgetown, for whom he has performed operations.

A supplementary of the control of the control of the performed operations.

Protection from Lightning.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of Spratt's Electrican and Electro-Metallunger Lourning-Roy Manufactory, Covington, Rentucky, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zinc Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum silver point, (patented,) travelve inches long, aurrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the racet magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,
Weshington City.

I do hereby certify that I have applied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of so dium, (common sait), acette acid, sulphuric acid, and hydrochloric acid. With the first, here was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect.

ments, sufficient to show that atmospheric falluences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

UNIVERSITY OF GA., October S, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are latended. Yours, truly,

LEXINGTON, KY., February 20, 1850.

CHICAGO, September 3, 1860.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Appurers. (Ga.) November 11, 1850.

could not I think superior, to any other rod ever offered for my inspection.

ADDUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A MEANS, Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an emportant auxiliary defence against a danger

It is to be hoped that the use of these Rods may become a sense, as an important auxiliary defence against a dang which must be regarded as of no ordinary magnitude, which all buildings are hable. R. SIJIMAN, Jr., Prof. of Chem. in the University of Louisville, Louisville, January 27, 1861.

All orders left at ANDREW DUFFY'S Stove Manufactory, 7th street, will be prompily attended to; or at GEORGE BELL'S, Alexandris, Va., corner of King and St. Asaph'sts. ap 14-tf Philadelphia Type and Stereotype Foundry.

A BOOK FOR THE TIMES.

A BOOK FOR THE TIMES.

HELPS to a life of Holiness and Usefulness, or Caughey's Revival Miscellanies. The demand for this book is almost unprecedented in the history of Methodist publications. Six thousand copies have been sold in about four months. The sevenet thousand is now ready. Read these notices of its character:

"These sermons are admirably fitted for producing effect, immediate, powerful effect, upon the popular mind. Brief, hitting, bold, subjective; abouading in anecdote, illustration, patkos; never prosy; never halting for a moment in confident persuasion that sinners are to be converted by the truth they press home. \* \* We unheritatingly recommend the circulation of this book."—Rev. Dr. Wightman, Ed. S. C. Advocate.

"It is a good work, and all that have bought it say so, One \* \* very good brother said, after seating the sermon on the 'Omnipotence of Faith,' that it give him more of an insight of faith than anything he ever read or heard. A Baptist minister purchased a copy, and was carried away with the spirit of the work."—Rev. Theodore Hill, of the Ania e Conference.

"I like Revival Miscellanies very much. It will do good in the church."—Rev. G. M. Chrpenter, of Providence Conference.

"I have read the book, and am not only delighted, but

'erence.

"I have read the book, and am not only delighted, but feel that I am a better man. All who have read it are greatly pleased."—Rev. T. Sullinz, of the Holaton Conference.

"This book has been a great blessing to my soul. It has fired up my cesl, and I feel like working for the Lord as I never did before."—Rev. J. H. Montgomerv, of Alabama.

"We shou!" hardly think it Possible for any Christian to read this volume without partaking largely of that holy unction which breathes and burns on every page."—Rev. Richard Donkersley, of the Providence Conference.
